Dear Admission Committee Members,

I am writing this letter to strongly recommend Mr. SADDAM AL-WESABI for Ph.D. study program. As a master student in our department for more than two years, I, his supervisor, observed diligence, intelligence and creativity in his academic works. In his presentations and discussion, he shows great understanding, efficiency and accuracy. In all seminars, Mr. AL-WESABI was very informative, displaying clinical and academic abilities. In addition to being ethical, considerate, and optimistic, he is highly endowed with communicative skills. Mr. AL-WESABI is one of the top students I have enjoyed supervising so far. With his research and academic writing abilities, supervising him is a blessing. On this basis, I assure you that he will excel your expectations and be a great asset to your academic institution.

Sincerely,

Xie Fu Qiang

Professor,

Head of Oral and Maxillofacial Department

Lanzhou University second hospital,

Lanzhou University, China
